

Lewis Benson

Enterprise Support Engineer | RapidIdentity | SaaS Escalations | Identity & Access Management
Brockway, PA | 814-661-8743 | tm.lewisbenson@gmail.com | linkedin.com/in/tm-lewis-benson | github.com/tm-LBenson

PROFESSIONAL SUMMARY

Tier 2 support engineer focused on RapidIdentity escalations, customer-facing troubleshooting, and root-cause resolution for identity and access management issues. Combines SaaS support, code-level debugging, AWS infrastructure, and software-development fundamentals to isolate API, directory-sync, SSO, provisioning, automation, networking, and database issues and communicate fixes clearly to customers, TAMs, Product, and Engineering.

TECHNICAL SKILLS

Identity & Support: RapidIdentity, identity and access management (IAM), SSO, provisioning, directory synchronization, customer escalations, root-cause analysis, log analysis, diagnostics, issue reproduction, customer advocacy, technical documentation

Languages & Web: JavaScript, Go, Python, Java, SQL, Bash, HTML/CSS, REST APIs, JSON, OAuth, authentication, authorization, web technologies

Cloud & Infrastructure: AWS EC2, S3, CloudFront, Route 53, IAM, CloudFormation, Lambda, API Gateway, Docker, Nginx, SSL/TLS, DNS, Linux, deployment pipelines

Databases & Tools: PostgreSQL, MongoDB, DynamoDB, Prisma, Sequelize, Git, GitHub, VS Code, ticketing and support workflows

PROFESSIONAL EXPERIENCE

Jamf / Identity Automation (RapidIdentity) - Enterprise Support Engineer / Service Engineer | Remote | Jan 2025 - Present

- Serve as escalation-level support for RapidIdentity customers, troubleshooting IAM, SSO, directory synchronization, provisioning, automation, access-management, configuration, and integration issues across K-12 and enterprise environments.
- Use logs, debugging tools, configuration review, issue reproduction, and root-cause analysis to diagnose product behavior and drive repeatable resolution paths.
- Read code and logic paths to troubleshoot functionality issues, isolate defects or misconfigurations, and communicate actionable findings to Support, TAM, Product, and Engineering teams.
- Translate complex technical details into clear customer updates, internal case notes, documentation, and handoff summaries that keep stakeholders aligned during escalations.
- Support secure handling of customer identity data while staying focused on business needs, accuracy, and prevention of recurring issues.

CodeX Academy - DevOps Contractor / Instructor | Remote | Apr 2023 - Present

- Designed and deployed AWS infrastructure for the Chett AI demo environment, including EC2, S3, CloudFront, Route 53 DNS, IAM permissions, CloudFormation, Docker, Nginx reverse proxying, and SSL/TLS configuration.
- Built deployment workflows to move application code to EC2 and static assets to CloudFront/S3, improving release consistency and reducing manual deployment steps.
- Assisted with Amazon Bedrock agent/model tuning and application integration for AI-enabled learning workflows.
- Mentor students in full-stack JavaScript, debugging, REST API design, Git, deployment fundamentals, and practical problem solving.

Vet Stack Solutions LLC - Founder / Software Engineer | Remote | Jun 2023 - Present

- Built and sold a dispatch platform for a school-bus company covering scheduling, route building, dispatch workflows, and day-to-day transportation coordination.
- Deliver limited freelance web development, software consultation, and 1:1 coaching while keeping Jamf support work as the primary professional focus.

Army National Guard - Squad Leader | Pennsylvania | Oct 2006 - Present

- Lead personnel, coordinate mission execution, maintain equipment accountability, and support joint operations with calm, structured decision-making under pressure.

CERTIFICATIONS

AWS Certified Solutions Architect - Associate, Amazon Web Services | Issued Oct 2024 | Expires Oct 2027

AWS Certified Cloud Practitioner, Amazon Web Services | Issued Aug 2024 | Expires Aug 2027

EDUCATION

Strayer University - Bachelor of Science in Information Technology, Software Development focus | 2024 | GPA: 4.0

Code Fellows - Certificate, Advanced Software Development in Full-Stack JavaScript | 2023
